INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT 2

This Intellectual Property Assignment Agreement (the "***Agreement***") is entered into as of June 9, 2025 (the "***Effective Date***") by and between Tobe Energy Corp., a corporation organized under the laws of the State of Oklahoma ("***Assignor***") and Tobe Energy Corp., a Delaware corporation (the "***Company***"). The parties hereto agree as follows:

WHEREAS, Assignor is transferring all of its intellectual property rights to the Company as part of a corporate restructuring and consolidation of assets;

WHEREAS the parties desire to confirm and document the assignment of such rights for recordation and legal clarity;

NOW, THEREFORE, in consideration of the mutual covenants and promises set forth herein, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties agree as follows:

1. Definitions.

(a) "**Technology**" means all software (in any form including source code and executable or object code), data, databases and data collections, designs, documentation, drawings, flow charts, algorithms, processes, inventions (whether or not patentable or reduced to practice), know-how, materials, methods, protocols, mobile applications, websites, application programming interface, scripts, routines, specifications, techniques, tools or other works of authorship or embodiments of technology or invention, regardless of form or media, and well as any content (including any website content), instructions or other documentation describing, detailing or used in connection with foregoing.

(b) "**Intellectual Property Rights**" means any intellectual property, industrial or proprietary rights throughout the world, including without limitation the following: (A) all United States and foreign patents and utility models and applications therefor and all reissues, divisions, re-examinations, renewals, extensions, provisionals, continuations and continuations-in-part thereof, and equivalent or similar rights anywhere in the world in inventions and discoveries including without limitation invention disclosures (whether or not subject to patent application or patent); (B) all trade secrets and other rights in know-how and confidential or proprietary information; (C) all copyrights, copyrights registrations and applications therefor and all other rights corresponding thereto throughout the world; (D) all rights in World Wide Web addresses, uniform resource locators, domain names and applications and registrations therefor; (E) all trade names, logos, common law trademarks and service marks, trademark and service mark registrations and applications therefor and all goodwill associated therewith throughout the world; (F) all sui generis database rights or other rights to data or data collections; (G) any similar, corresponding or equivalent rights to any of the foregoing anywhere in the world, and any applications, issuance or registrations relating to the foregoing; and (H) rights to sue for past, present and future infringement or misappropriation of any of the foregoing.

2. Assignor hereby irrevocably assigns, sells, transfers and conveys to the Company all of Assignor's right, title and interest in and to any and all Technology and Intellectual Property Rights, whether now existing or hereafter arising, including, without limitation, all copyrights (registered or unregistered), trademarks and service marks (registered or unregistered), domain names, trade secrets, inventions, know-how, and any other intellectual property or proprietary rights throughout the world, together with all rights to sue for past, present, and future infringement or misappropriation thereof. A list of certain known Technology and Intellectual Property Rights is set forth in Exhibit A for reference purposes only. The

inclusion or omission of any Intellectual Property Rights in Exhibit A shall not limit the scope of the assignment provided herein.

3. In consideration for Assignor's execution of this Agreement, and the transfer of rights and obligations contained herein, the Company agrees to collectively pay Assignor a total of one hundred ($100.00) dollars.

4. Upon Company's request Assignor agrees to promptly execute documents, testify and take other actions, at Company's expense, as the Company may deem necessary or desirable to procure, maintain, perfect, and enforce Company's full benefits, enjoyment, rights, and ownership on a worldwide basis of the Transferred IP, and render assistance in making application for and obtaining copyrights, patent rights, and all other intellectual property rights throughout the world related to any of the Transferred IP. Without limiting the generality of the forgoing, Assignor shall take all steps useful or necessary to document, record and effect the proper transfer of all patents and cooperate with Company and the applicable domain name registrar(s) to transfer any domain names to Company, including by completing any required forms and making any necessary online confirmations.

5. If Company is unable for any reason, after reasonable effort, to secure any of Assignor' signatures on any document needed in connection with the actions specified herein, Assignor hereby irrevocably designates and appoints the Company and its duly authorized officers and agents as its agent and attorney in fact, which appointment is coupled with an interest, to act for and in its behalf to execute, verify and file any such documents and to do all other lawfully permitted acts to further the purposes of this paragraph with the same legal force and effect as if executed by Assignor.

6. If any Intellectual Property Rights, including moral rights, cannot (as a matter of law) be assigned by Assignor to Company as provided herein, then (a) Assignor unconditionally and irrevocably waives the enforcement of such rights and all claims and causes of action of any kind against Company with respect to such rights, and (b) to the extent Assignor cannot (as a matter of law) make such waiver, or such waiver is not full enforceable, Assignor unconditionally grants to Company an exclusive, perpetual, irrevocable, worldwide, fully-paid license, with the right to sublicense through multiple levels of sublicensees, under any and all such rights (i) to reproduce, create derivative works of, distribute, publicly perform, publicly display, digitally transmit, and otherwise use the Transferred IP in any medium or format, whether now known or hereafter discovered, (ii) to use, make, have made, sell, offer to sell, import, and otherwise exploit any product or service based on, embodying, incorporating, or derived from the Transferred IP, and (iii) to exercise any and all other present or future rights in the Transferred IP.

7. Assignor will deliver to the Company any and all tangible manifestations of the Technology and Intellectual Property Rights, including, without limitation, all source code and object code, notes, records, files and tangible items of any sort in its possession or under its control relating to the Technology and Intellectual Property Rights. Such delivery will include all present and predecessor versions.

8. Assignor acknowledges that Assignor retains no ownership or title in or to the Technology and Intellectual Property Rights assigned by this Agreement, and has no right to use the Technology and Intellectual Property Rights or file for any additional Intellectual Property Rights in connection therewith. Assignor agrees not to challenge the Company's ownership of the Technology and Intellectual Property Rights, nor the enforceability or validity thereof. Assignor waives and quitclaims to the Company any and all claims, of any nature whatsoever, which Assignor now or may hereafter have for infringement of any Transferred IP.

9. This Agreement may be executed in two or more counterparts, each of which will be deemed an original, but all of which together will constitute one and the same instrument. Counterparts may be delivered via facsimile, electronic mail (including pdf or any electronic signature complying with the U.S. federal ESIGN Act of 2000, Uniform Electronic Transactions Act or other applicable law) or other transmission method and any counterpart so delivered will be deemed to have been duly and validly delivered and be valid and effective for all purposes.

10. This Agreement will be governed and construed in accordance with the laws of the State of New York, as such laws are applied by New York courts to contracts made and performed entirely in New York by residents of that state. The parties agree to the exclusive personal jurisdiction and venue of the state and federal courts in New York, New York for any lawsuit arising from or related to this Agreement.

11. If any provision of this Agreement is found invalid or unenforceable, in whole or in part, the remaining provisions and enforceable terms will, nevertheless, be binding and enforceable to the fullest extent permissible under law.

12. The provisions hereof will inure to the benefit of, and be binding upon, the successors, assigns, heirs, executors and administrators of the parties hereto.

EXHIBIT A TO INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT 2

DESCRIPTION OF TECHNOLOGY AND INTELLECTUAL PROPERTY RIGHTS

This Exhibit A identifies certain known Intellectual Property Rights and Technology assigned under the Agreement. The inclusion or omission of any item herein does not limit the scope of the assignment described in Section 2 of the Agreement.

1. Patent Applications

    - U.S. Non-Provisional Patent Application No. 19/088,007, titled "Advanced Electrolyzer Utilizing Capacitively Coupled Resonant Effects for Enhanced Hydrogen Production Efficiency", filed on March 26, 2025, and claiming priority to U.S. Provisional Patent Application No. 63/570,102, filed on March 26, 2024.

2. Domain Name

    - Domain: https://tobe.energy

3. Common Law Trademarks

    - TOBE ENERGY (stylized and word mark), used in commerce in connection with hydrogen energy production systems and related consulting services.

4. Copyrights

    - All original works of authorship created or owned by Assignor and used in connection with the TOBE ENERGY business, including but not limited to website content hosted at https://tobe.energy, marketing materials, product documentation, software code, diagrams, and illustrations.
