General Information

Description

Developer of modular electrolyzers designed to decarbonize global carbon emissions. The company's product aims to decarbonize industries like steel and ammonia production by focusing on green hydrogen made from renewable energy, enabling companies to provide affordable green hydrogen for decarbonization.

Most Recent Financing Status (as of 20-Sep-2024)

The company raised $5 million of Seed-1 funding in a deal led by Seven Seven Six on September 17, 2024, putting the company's pre-money valuation at $20 million. Founders Fund and Fontinalis Partners also participated in the round. The funds will be used to accelerate the commercial deployment of its technology at customer sites.
